Education Round Up

Perhaps you have participated in a round up program, rounding up your purchase to the nearest dollar to support a charity? Education Round Up is a program that will go to the education scholarships offered by Tongue River Electric and its members.

A Tongue River Electric Cooperative member can choose to have their monthly electric bills rounded up to the nearest dollar, with the exceeding cents going towards Education Round Up. As part of this program, the member can also just select a dollar amount they wish to give to this program. The program is voluntary.

Round up your monthly electric bill to the nearest dollar amount and the remaining cents will go towards Education Round UP. The average annual contribution from a customer is \$6.00. The most a customer could contribute by rounding up their bill is \$11.88 (.99 cents per month).

Sign up for Education Round Up by returning this form, stopping by the TRECO office or sign up via SmartHub online, to allow authorization.

- YES, I would like to participate in Education Round Up by allowing Tongue River Electric Cooperative to "round up" my electric account(s) to the nearest dollar each month.

OR

Please add the amount checked below to my monthly bill, this is to go to the Tongue River Electric Education Round UP Program.
